

ZING

Where are my manners!
I forgot to introduce myself.

I'm Zing and we can have a whole lot of fun together,
from talking to each other to even having a dance-off!
For a curious and active mind like yours, this is probably
not enough. That's why you can also modify me to your
heart's content using LEGO™ Technic Blocks.

Still not enough? No problem. You can let me adapt to
your surroundings by attaching a wide variety of sensors
onto me. Of course, you will have to tell me what to do
but that's easier than ever before by using the Bisoft app.

**So, what are you waiting for?
Let's get moving!**

Features To Play With

Powerful 32 - bit
